

Chiaroscuro Choice Black and White Still Life (SPII #3) Name: _____ period: _____

Ms. Grunt

PA standard 9.1.A, B, C, E, H; 9.3. A, B

Goal: For this project you will use value and **chiaroscuro shading** as you draw or paint from observation from still life set-ups in the room. You will select the media you wish to work with. Options include charcoal pencil, pencil, ink, hatching, collage, oil paint or other media (see me with ideas). You will use a viewfinder and make preparatory thumbnail sketches to plan your composition. Once these are approved, you need to decide what the ground will be that you work on (will you tone the surface, leave it white, or use some other idea?). Be sure to incorporate a **complete value range** of light to dark and avoid outlines, instead using crisp shading to create edges.

Note: When storing your work, you may want to keep charcoal drawing covered with a sheet of newsprint so that it does not smear.

1. Review **composition handout** and set viewfinder proportionally. Make 9 proportional thumbnails: at least three of each still-life set-up in the room. Remember to try both horizontal and vertical views and draw quadrant lines as you start. Plan to draw off edges of your paper.

2. Next, look at the still life set-ups. Find an object that interests you and make a **practice study in your choice of media**. Select a view that allows you to draw the 4 elements of chiaroscuro: **high light, reflected light, cast shadow** and **zone of tangency**. Label each of the 4 elements of chiaroscuro.

5. Take (and pass) measurement and thumbnail quizzes; meet with teacher to approve final thumbnail.

For your Final Grade:

Working on a minimum 16 x 20" toned paper, canvas board or other support (see me with ideas), lightly sketch quadrant lines. Use your thumbnail as a reference, but continue to always observe the still life set up! Lay out your drawing on the large paper. **Tips:** Try to remember plumb lines, level lines, angles, ellipses and negative shapes. All of this will help you to keep your work accurate. Be sure drawing appears correct before you start to add cast shadows, local value, highlights and zones of tangency.

Challenge: Select a view with at least 5 objects in it. Consider reflective surfaces and challenging objects to draw.

			• Do you show evidence of chiaroscuro including: cast shadows and highlights?	S

craftsmanship 9.1. B, H

			• Does drawing show accurate sighting and comparison measurements so that proportions of objects look correct in relationship to each other?	S
			• Does work show evidence of chiaroscuro shading to define objects, not outlines?	
			• Does work show evidence of correct ellipses/use of plumb lines to aid in symmetry of objects?	T
			• Does work show overall care and completeness in use of materials?

composition 9.1. C, E

			• Is whole page used while creating dynamic negative shapes without leaving too much empty space?	S
			• Are values balanced throughout composition to lead eye around page (remember, mostly 2 – 7 with small amounts of 1 – 8)?	
			• Do you draw off edges of the paper (shadows and table edges can help meet this goal)?	T
			• Do you consider 'smart cropping' as explained on composition handout?

Artist Study: SPII # 3 Chiaroscuro Choice Black and White Still-Life

Open Project **3** Images on the class website (msgrunt.com Studio Portfolio II) under **Images for Paragraph**. Select an image that you want to compare to your project. In the box below, draw a sketch of image you are selecting. (note: draw a vertical border inside it if it is vertical composition).

Artist _____

Title _____

Date _____

Compare the image you've selected to your project. From the following list consider what is similar and what is different. Write an "S" or "D" next to each:

- ___ Use of chiaroscuro to create edges, not outlines
- ___ Use of cropping
- ___ Use of overlapping
- ___ Type of shading (hatch marks, other)
- ___ Range of value on value scale
- ___ Evidence of 'smart cropping'
- ___ Subject matter
- ___ evidence of strong shadows
- ___ reflective surfaces/ shiny objects
- ___ Other ideas? Write them here:

Complete a **TYPED** well-written paragraph in which you argue that despite differences (discuss 3), the two pieces actually share important similarities (discuss 3). Conversely, you may choose to argue that despite similarities the pieces are actually different, following the same format. **Note**, this means that you will give examples of each similarity and difference you describe. Push yourself to find **thoughtful and interesting** similarities and differences as opposed to obvious statements like 'each piece is a still life'.

Check off each item below:

- ___ • paragraph is submitted by the deadline (note: late paragraphs won't be accepted!).
- ___ • Image is sketched above
- ___ • Paragraph introduces full name of artist in opening sentence
- ___ • Titles of the artwork being discussed are italicized and CAPITALIZED!
- ___ • Thesis is stated (in 1st or 2nd sentence) (Several difference and similarities are apparent when comparing _____'s (insert title) with my _____ (project name, media).
- ___ • 3 similarities are well explained
- ___ • 3 differences are well explained
- ___ • **Variety** of transition words are used (and underlined) to discuss and explain list of similarities and differences (use transition-word handout!)
- ___ • A transition sentence is included to change from the discussion of differences to the discussion of similarities (**it is also underlined**) ex: Despite these differences there are also several important similarities between these pieces of artwork.
- ___ • Finally, conclude the paragraph, by including your opinion about the works discussed (see sample).
